

# system architect

umdasch Madosan stands at the forefront of store and market equipment design, as well as innovative warehouse racking systems in Türkiye.

In 2020, we joined forces with umdasch the Store Makers, a division of Umdasch Group AG, one of Austria's oldest and most respected family-owned companies. Umdasch Group is led by top experts in their respective fields. With a global presence encompassing over 8,900 dedicated employees and a rich economic legacy, Umdasch Group maintains a presence in more than 70 countries through its 180+ branches.

Our journey towards a brighter future is characterized by shared values and aspirations. These values and goals form the strongest ties we share with our colleagues and business partners.

is in our nature

4

Our mission is to breathe life into your projects. Achieving this hinges on how we define ourselves. To our colleagues, customers, suppliers, and all other stakeholders, we represent a reliable partner ready to tackle diverse projects related to successful stores and warehouses. We structure our daily endeavors and decisions based on our guiding principles.

We perform with commitment and concentration.

We act responsibly towards society and the environment.

We understand the overall picture and master the details.

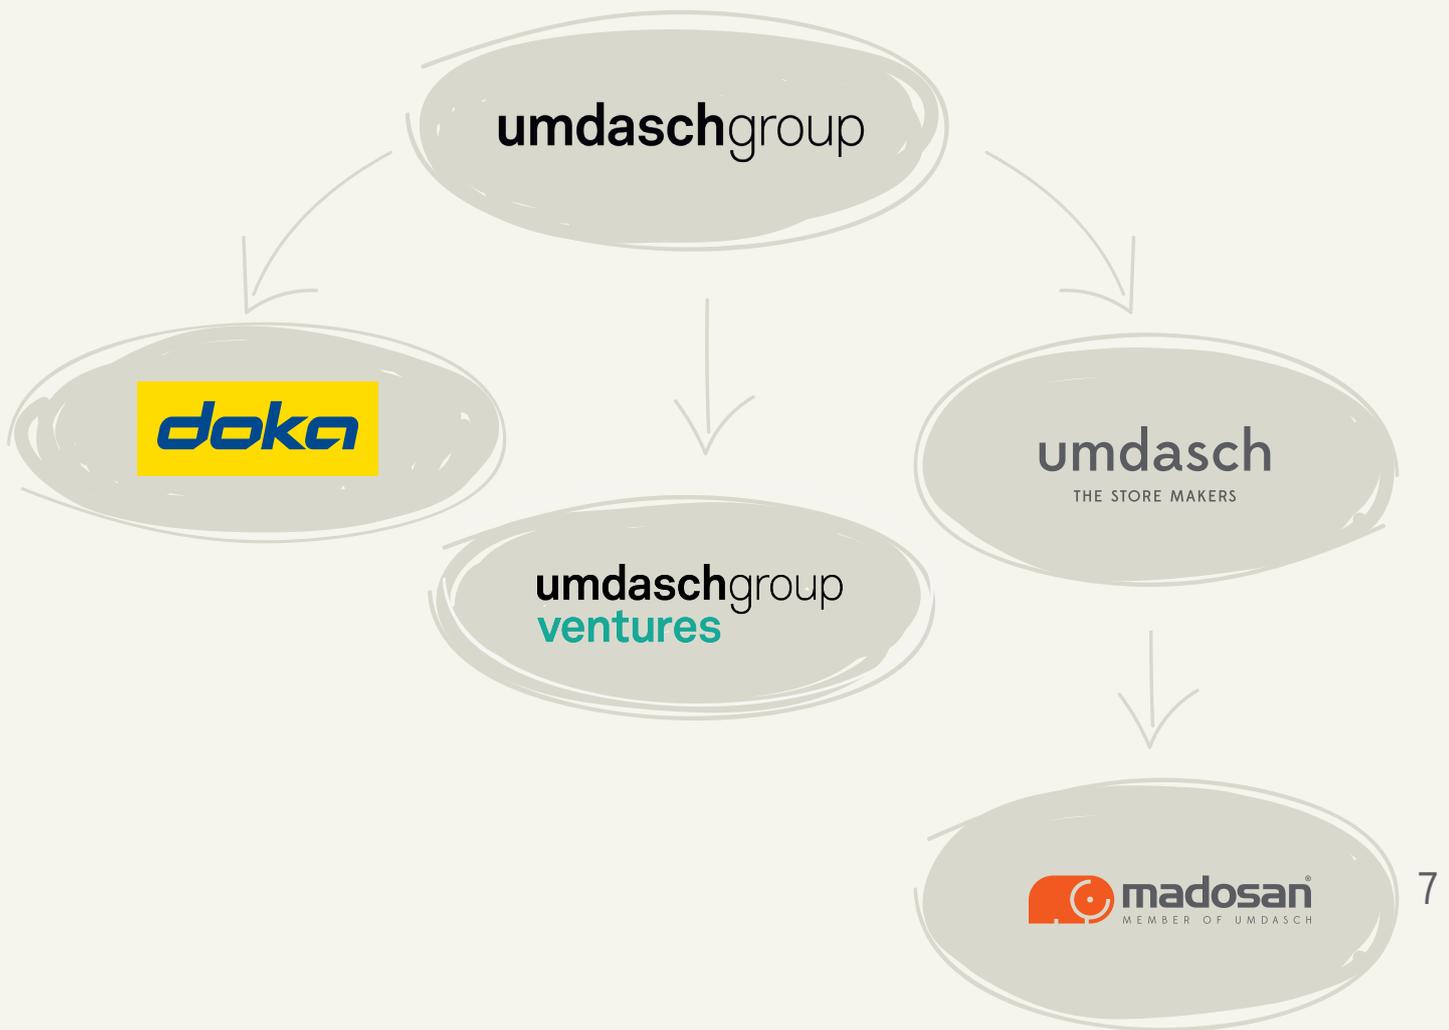

We listen, understand and think ahead.

# our values

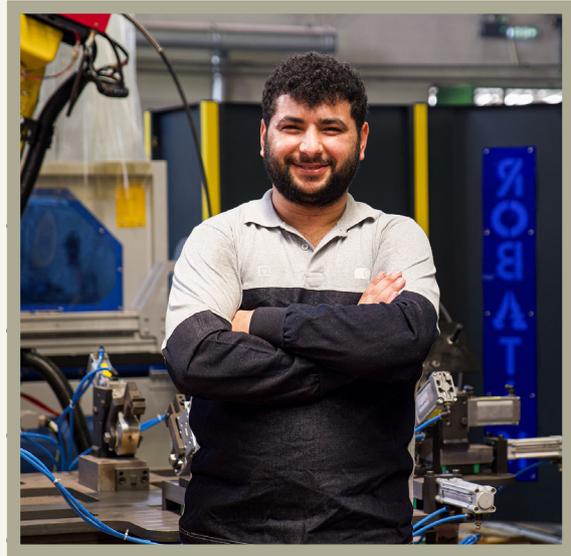

We work together proactively as a team.

We give our best every day.

We think outside the box.

Our ambition is to play at the top with our heart and soul.

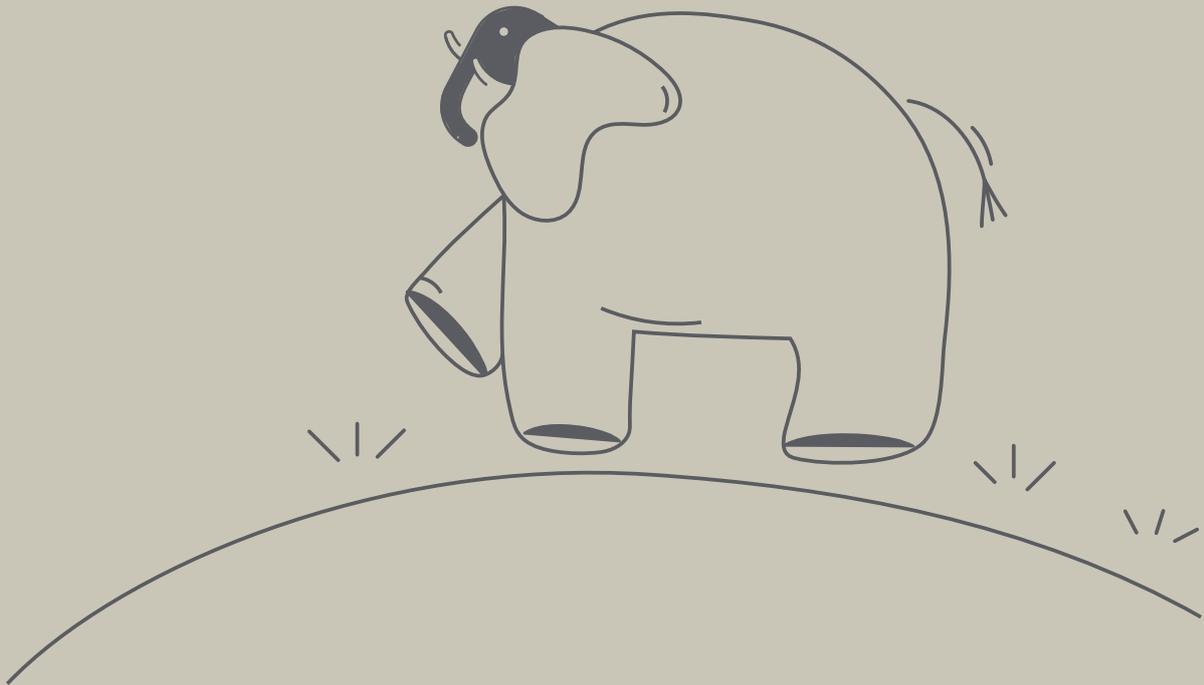

11

We have the courage to tackle new challenges.

# our sustainability approach

12

## our visions

Our visions are our innovations. They show how we imagine the future. Together with our customers we therefore, develop sustainable products and services for a sustainable partnership.

## our finances

Our finances are a part of our sustainability strategy. Because doing business in a generation-oriented way means using financial resources in a forward-looking and prudent manner.

## our products and services

As a strong partner, we are the right choice when it is a question of realising sustainable store concepts.

13

## our team members

Although our employees speak a variety of languages, come from different cultural circles and are unique as regards both mentality and personality, we are all united by one thing in particular: our values.

## our environment

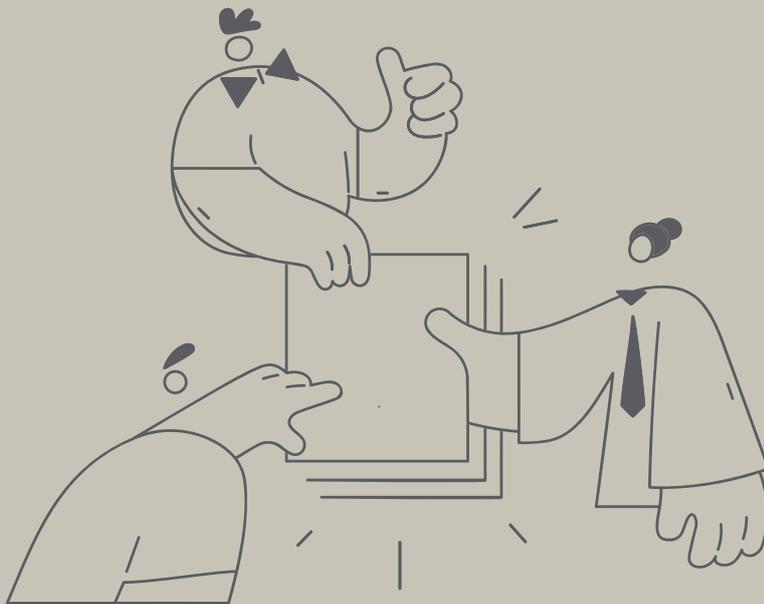

The measurement and continuous reduction of our environmental impacts are our focus.

## our partners

Climate protection is a challenge which we can only measure up to as a community. Sustainable partnerships and networks are therefore enormously important to us.

what  
**we**  
do

At umdasch Madosan, customer satisfaction and success have always been our guiding stars. In our 16,000 m<sup>2</sup> production facility in Bursa, in conjunction with our global supply network, we manufacture top-tier products while adhering to delivery schedules. Armed with over three decades of experience and our people-centered approach as a family-run company, we consistently deliver on every project, aligning with your requirements and surpassing your expectations.

Bringing good ideas to life as prosperous stores necessitates well-structured concepts.

Our experts oversee the comprehensive development and planning of retail solutions. We further refine your concepts through a collaborative creative process. The synergy of our wide-ranging competencies results in versatile solutions that become an integral part of our daily operations.

## Liquid Dispenser

### Refill, Don't Recycle

The Liquid Dispenser is a forward-looking solution aimed at reducing CO2 emissions and combating climate change. It's designed to curtail plastic waste, saving a significant 1,950 kg of plastic each month.

## Bake - Off System

### Modular Sales Systems for Bakery Delights

Our Bake-Off System delivers warm, freshly baked goods that stimulate all the senses and transport your customers to the ambiance of a corner bakery. It ensures maximum hygiene for your unique bakery products.

## Cashless Checkout - Matrix

### Scan - Bag - Pay and Go

Our Cashless Checkout Matrix boasts an integrated, user-friendly, and streamlined hardware design that offers a seamless self-checkout experience. This simplifies the process for customers and cultivates a positive shopping journey.

## Electronic Shelf Labels

### Interactive Price Tags

E-label displays, seamlessly mounted on shelves, empower automatic labeling of products with pricing and essential information. These labels ensure price consistency and swift adjustments in response to market changes.

# Our Export Network

We deliver a distinct and efficient experience from design to production, spanning all the way to the end consumers. This approach caters to the diverse needs of our clients, spread across the world.
